

SANDYMOUNT HOTEL

AT AVIVA STADIUM

Keep an eye out for our smallest 'staff' in our garden. We support biodiversity; there is an insect 'hotel' in the garden.

95% of our hotel waste is recovered or recycled each month. We also recycle all our mattresses & printers.

We are using 22% less electricity than in 2013. 26% of the electricity we use comes from renewable sources.

By introducing aerator shower heads we've reduced our water usage per guest by 47%.

Europe's Leading Green Hotel

Sandymount Hotel was awarded 'Europe's Leading Green Hotel 2017, 2018 & 2019' at World Travel Awards.
